Medical Billing and Coding Online Training

Online Classes

Keeping pace with the rapidly changing healthcare regulations is becoming increasingly more difficult. The Medical Association of Billers offers on-line classes to fit your busy schedule. By taking courses over the Internet, you have the unique advantage of studying in the comfort of your home or work place, at your own pace, and interacting with your instructor when the time is right for you. There is no driving, no traffic, no baby-sitter, and no missed work! Classes are 3-weeks long with a final during the 4th week. For the first 3-weeks a lesson is emailed to the student on Monday and the assignment at the end of the lesson must be returned to the instructor by Sunday for grading. If at any time the student has a question they can email their instructor for prompt assistance. Upon successful completion of the final exam, students receive a Certificate of Completion, which may be used towards their Certified Medical Billing Specialist[®] designation.

To become Certified Medical Billing Specialist[®] (CMBSTM) students must be a member of the MAB plus successfully complete all 4 online classes. To become a Certified Medical Records Technician (CMRTTM) students must be a member of the MAB and successfully complete online classes 1 and 3.

Certified Medical Billing Specialist[®]

The CMBSTM Program is a challenging series of interesting and practical courses. A candidate for certification is an individual who is motivated to improve their medical billing and coding knowledge and develop new skills to assist providers in maximizing their reimbursement through proper billing, coding and documentation. A list of required classes is on the reverse side of this flier.

Certified Medical Reimbursement Technician[®]

The CMRTTM Program is intended for students who want to improve front office skills. A candidate for certification is an individual who is motivated to improve their patient care skills and medical billing knowledge and develop new skills to assist providers in maximizing their reimbursement through proper billing and patient communication. A list of required classes is on the reverse side of this flier.

Thank you for choosing the Medical Association of Billers!
